Vellore Institute of Technology, Vellore

Integrated M.Tech Software Engineering | CGPA: 8.17 | Expected Graduation: 2027

Experience

- **Full Stack Developer Intern CopterCode, IIT Madras Research Park, Chennai** | June 2026 – July 2026
- Worked extensively on data preprocessing, algorithm implementation, and performance evaluation
- Gained hands-on experience in debugging, optimization, and testing
- Developed full-stack and ML-based applications addressing real-world agricultural problems
- Experienced in data processing, backend development, and system optimization

Projects

- **Design and Analysis of Voting System using Observer Pattern**
Java, OOP, Design Patterns
 - Implemented Observer pattern for real-time vote updates
 - Focused on clean code and maintainability
- **E-Farm Products Selling Platform**
Python / Java, HTML, CSS, JavaScript, Database (MySQL/Firebase)
 - Developed an online platform to connect farmers directly with consumers for agricultural product sales
 - Designed modules for product listing, user authentication, order management, and payments
- **Crop Weather Prediction System**
Tech Stack: Python, Machine Learning, NumPy, Pandas, Scikit-learn
 - Implemented machine learning algorithms to predict suitable crops based on climate conditions
 - Improved prediction accuracy through feature selection and data optimization
- **Learning Management System (LMS)**
Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs, JWT Authentication
 - Developed a full-stack Learning Management System with secure role-based authentication for students and teachers.
 - Implemented modules for course management, video lectures, study materials, quizzes, assignments, and progress tracking.

Technical Skills

Languages: Python, Java, C++, JavaScript

Libraries/Frameworks: React, Express.js, Flask, FastAPI

Databases & BaaS: MongoDB, MySQL

Tools and DevOps: Git, GitHub, Docker, GitHub Actions
